Art Unit: 3713

1. This action is in response to the communication of the US Application No. 09/986,647 filed June 22, 2004.

Response to Amendment

2. It has been noted that claims 1-2, 6-12, 14-15, 19-23 have been amended, claims 3-5, 16-18 cancelled and claims 27-33 added. Hence, claims 1-2, 6-15, 19-33 are pending.

Information Disclosure Statement

3. The information disclosure statement (IDS) filed on February 27, 2002 is considered by the examiner. However, since the Applicant submitted the list of references on a sheet and failed to provide the listed references on form PTO-1449, the listed references are being recited on form PTO-892. No copies of the listed references are being submitted with this office action since the references are already on file.

Allowable Subject Matter

4. Claims 1-2, 6-15, 19-33 are allowed over the prior art of record.

Specification

5. The substitute specification filed June 22, 2004 has not been entered because it does not conform to 37 CFR 1.125(b) and (c) because:

a. The statement as to a lack of new matter under 37CFR 1.125(b) is missing.

Art Unit: 3713

b. A clean copy of the substitute specification has not been supplied in addition to the marked up copy.

Allowable Subject Matter

6. The following is an examiner's statement of reasons for allowance: upon extensive searches of game machine, the Examiner respectfully submits that the prior art of record fails to disclose a game machine comprising "a difficulty level change section, that in response to a difficulty level having been set low, skips or changes at least a portion of the operation type data without skipping or changing the operation timing data" as recited in independent claims 1, 14, 15, 27, 30, 31. Hence the Examiner has allowed claims 1-2, 6-15, 19-33.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art Citations

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. US Patent No. 4,249,735 to Bromley, which teaches electronic simulated football game and method.
